Subject index*

A

Abrasion
Development of an abrasion index (Gourdon et al). 1987;57:358-61
Occlusal contacts and tooth wear (Woda et al). 1987;57:85-93

Abutment
Abutment tooth movement measured in vivo by using stereophotogrammetry (Browning et al). 1987;57:323-8
Abutment tooth movement related to fit of a removable partial denture (Eick et al). 1987;57:66-72
A photoelastic study to determine the location of the nonrigid connector in a five-unit intermediate abutment prosthesis (Landry et al). 1987;57:454-7
Vertical alveolar bone changes related to overdenture abutment teeth (Walters). 1987;57:309-14

Acid-etch
The continuous brushing acid-etch technique (Baharav et al). 1987;57:147-9
Distribution of acid-etched, fixed, and removable prostheses in dental patients (Gustavsen and Katz). 1987;57:374-9

Acrylic resin; *see also* **Resin**
Dimensional stability of dentures processed in boilable acrylic resins: a comparative study (Polyzois et al). 1987;57:639-47
Functional modification of acrylic resin monoplane occlusions (Mulcahy). 1987;57:465-70
Improved adhesion of denture acrylic resins to base metal alloys (Zurasky and Duke). 1987;57:520-4
Microwave polymerization of acrylic resins used in dental prostheses (De Clerck). 1987;57:650-8
Reinforced heat-processed acrylic resin provisional restorations (Binkley and Irvin). 1987;57:689-93

Adhesive; *see also* **Bond; Cement**
Bond strength of composite to metal mediated by metal adhesive promoters (Tjan et al). 1987;57:550-4
A comparison of bond strengths of adhesive cast restorations using different designs, bonding agents, and luting resins (Pegoraro and Barrack). 1987;57:133-8
Improved adhesion of denture acrylic resins to base metal alloys (Zurasky and Duke). 1987;57:520-4

Alloy
Bonding of dental porcelain to ceramic-metal alloys (Uusalo et al). 1987;57:26-9
Comparison of fracture strength of porcelain-veneered-to-high noble and base metal alloys (Barghi et al). 1987;57:23-6
Effect of porcelain thickness and type of metal-ceramic alloy on color (Jacobs et al). 1987;57:138-45
The effect of the temperature at quenching on the mechanical properties of casting alloys (DuBois et al). 1987;57:566-71
Improved adhesion of denture acrylic resins to base metal alloys (Zurasky and Duke). 1987;57:520-4
Sprue design and its effect on the castability of ceramometal alloys (Young et al). 1987;57:160-4
Strength properties of soldered joints for a gold-palladium alloy and a palladium alloy (Lorenzana et al). 1987;57:450-4
Tensile strength of postceramic solder joints with a palladium-silver alloy (Boudrias and Nicholls). 1987;57:165-71

Alveolar bone
Vertical alveolar bone changes related to overdenture abutment teeth (Walters). 1987;57:309-14

Alveolar ridge
Evaluation of implanted durapatite particles in fresh extraction sockets to maintain the alveolar ridge in beagle dogs (Sherer et al). 1987;57:331-7
A metal-based denture with soft liner to accommodate the severely resorbed mandibular alveolar ridge (Massad). 1987;57:707-11

Alveolar ridge—cont'd
Resin-bonded retainers with custom-made precision attachment for anterior alveolar ridge defect in patients with cleft (Cohen et al). 1987;57:78-81

Amalgam
Bacterial penetration around amalgam restorations (Fayyad and Ball). 1987;57:571-4
Dimensional stability of silver amalgam and composite used as core materials (Oliva and Lowe). 1987;57:554-9
Evaluation of finishing techniques for assessing surface roughness of amalgam restorations (Ulusoy et al). 1987;57:286-92
In vitro resistance of extensive amalgam restorations using various retention methods (Plasmans et al). 1987;57:16-20
Matrix band application for the occlusolingual or occlusobuccal amalgam restoration (Gildersleeve et al). 1987;57:387-8 (Tips)
Restoration of posterior pulpless teeth: amalgam overlay versus cast gold onlay restoration (Liberman et al). 1987;57:540-3
A study of procedures for burnishing amalgam restorations (Bauer). 1987;57:669-73
Use of a special matrix system for constructing amalgam and composite cores (Marshak et al). 1987;57:21-2

American Academy of Restorative Dentistry
Report of the Committee on Scientific Investigation of the American Academy of Restorative Dentistry (Jendresen et al). 1987;57:734-64

Anterior coupling
The influence of anterior coupling on mandibular movement (Brose and Tanquist). 1987;57:345-53

Anterior guidance
The measurement and development of anterior guidance (Kohno and Nakano). 1987;57:620-5

Anterior ridge deformity
Incidence of anterior ridge deformities in partially edentulous patients (Abrams et al). 1987;57:191-4

Anterior tooth; *see also* **Tooth**
Are anterior replacement teeth too small? (McArthur) 1987;57:462-5
Evaluation of the incisive papilla as a guide to anterior tooth position (Grave and Becker). 1987;57:712-4

Antibody
Antibody titre changes in patients undergoing treatment for denture stomatitis (Fouche et al). 1987;57:587-91

Articulation
Effect of a maxillary glossectomy prosthesis on articulation and swallowing (Davis et al). 1987;57:715-9

Articulator
Accuracy of zeroing the articulator (Nowlin et al). 1987;57:647-9
An in vitro study of an electronic pantograph (Anderson et al). 1987;57:577-80
Procedure to prevent reattachment of casts to alternate articulators by mistake (Eichhold). 1987;57:388 (Tips)

Artificial teeth; *see also* **Denture**
Are anterior replacement teeth too small? (McArthur) 1987;57:462-5
The frequency of various molds in a sample of natural and artificial dentitions (Grave). 1987;57:194-7

Asbestos
Potential health hazards of ceramic ring lining material (Davis). 1987;57:362-9

Asbestos-substitute
An investigation of the potential biohazards associated with asbestos-substitute casting ring liners (Tulachka et al). 1987;57:108-12

Atrophy
Autogenous bone grafts for atrophic edentulous mandibles: a final report (Curtis et al). 1987;57:73-8

Attachment
Periodontal attachment loss associated with proximal tooth restorations (Chen et al). 1987;57:416-20

*January, 1-132; February, 133-260; March, 261-396; April, 397-536; May, 537-668; June, 669-798.

Autogenous bone graft
Autogenous bone grafts for atrophic edentulous mandibles: a final report (Curtis et al). 1987;57:73-8

B

Bacteria
Bacterial penetration around amalgam restorations (Fayyad and Ball). 1987;57:571-4
Smear removal agents: a quantitative study in vivo and in vitro (Meryon et al). 1987;57:174-9
Base material
Comparison of fracture strength of porcelain-veneered-to-high noble and base metal alloys (Barghi et al). 1987;57:23-6
Improved adhesion of denture acrylic resins to base metal alloys (Zurasky and Duke). 1987;57:520-4
A metal-based denture with soft liner to accommodate the severely resorbed mandibular alveolar ridge (Massad). 1987;57:707-11
Reinforced heat-processed acrylic resin provisional restorations (Binkley and Irvin). 1987;57:689-93
Stabilized bases using available undercuts for retention and stability (Coffield). 1987;57:525
The staining characteristics, transverse strength, and microhardness of a visible light-cured denture base material (Khan et al). 1987;57:384-6
Biocompatibility
Biocompatibility of surface-sealed dental materials against exposed pulps (Cox et al). 1987;57:1-8
The cast glass-ceramic restoration (Malament and Grossman). 1987;57:674-83
Bond
Bond strength of composite to metal mediated by metal adhesive promoters (Tjan et al). 1987;57:550-4
Bond strength of composite rebonded to previously unetched enamel surfaces (Sheth and Reinhardt). 1987;57:439-42
Bond strengths of the lost salt procedure: a new retention method for resin-bonded fixed prostheses (Moon). 1987;57:435-9
Bonding of dental porcelain to ceramic-metal alloys (Uusalo et al). 1987;57:26-9
A comparison of bond strengths of adhesive cast restorations using different designs, bonding agents, and luting resins (Pegoraro and Barrack). 1987;57:133-8
Effect of electrodeposition of gold on porcelain-to-metal bond strength (Daftary and Donovan). 1987;57:41-6
A marriage of convenience: bonds of retention pins and composites (Federick). 1987;57:270-6
Microscopic examination of resin bond to enamel and retainer with a phosphate monomer resin (Ferrari et al). 1987;57:298-301
Resin-bonded retainers with custom-made precision attachment for anterior alveolar ridge defect in patients with cleft (Cohen et al). 1987;57:78-81
Saliva contamination and resin bonding of etched metal retainers (Cassidy and Storie). 1987;57:29-32
Bone
Bone-metal interface in osseointegration (Albrektsson and Jacobsson). 1987;57:597-607
Bone graft
Autogenous bone grafts for atrophic edentulous mandibles: a final report (Curtis et al). 1987;57:73-8
Book reviews
Book reviews. 1987;57:660
Bruxism
The sleep-wear syndrome (Colquitt). 1987;57:33-41
Bubbles
A study of bubbles in a rubber elastomer manipulated under clinical conditions (Stackhouse et al). 1987;57:591-6
Burnishing
A study of procedures for burnishing amalgam restorations (Bauer). 1987;57:669-73

C

Cancer
A custom speech valve retainer for the laryngectomee (Andres et al). 1987;57:208-14
Cancer—cont'd
Nutritional considerations of the head and neck cancer patient: some correlations in a retrospective study (Jackson et al). 1987;57:475-8
Candida albicans
Response of processed resilient denture liners to *Candida albicans* (Burns et al). 1987;57:507-12
Canine
The functional range of tooth contact in lateral gliding movements (Yaffe and Ehrlich). 1987;57:730-3
Influence of group function and canine guidance on electromyographic activity of elevator muscles (Manns et al). 1987;57:494-501
Caries
Report of the Committee on Scientific Investigation of the American Academy of Restorative Dentistry (Jendresen et al). 1987;57:734-64
Cast; *see also* **Cast crown; Cast restoration**
An altered-cast impression technique that eliminates conventional cast dissecting and impression boxing (Chen et al). 1987;57:471-4
Cast relationship made easy (Dunkin and St. Arnault). 1987;57:126 (Tips)
The effect of the temperature at quenching on the mechanical properties of casting alloys (DuBois et al). 1987;57:566-71
Evaluation of the incisive papilla as a guide to anterior tooth position (Grave and Becker). 1987;57:712-4
Factors affecting the retention and fit of gold castings (Marker et al). 1987;57:425-30
A method for uniform seating pressure on castings during cementation (Scrabeck et al). 1987;57:537-9
Procedure to prevent reattachment of casts to alternate articulators by mistake (Eichhold). 1987;57:388 (Tips)
Recording and reproducing the tilt of a cast on a surveyor (Steas). 1987;57:121-5
A simplified technique for the tooth preparation of onlay castings (Seymour). 1987;57:9-11
Sprue design and its effect on the castability of ceramometal alloys (Young et al). 1987;57:160-4
Tensile strength analysis of midpontic soldering (Ferencz). 1987;57:696-703
Cast crown
Effect of cavity varnish on retention of cemented cast crowns (Felton et al). 1987;57:411-6
Cast restoration; *see also* **Cast**
The cast glass-ceramic restoration (Malament and Grossman). 1987;57:674-83
A comparison of bond strengths of adhesive cast restorations using different designs, bonding agents, and luting resins (Pegoraro and Barrack). 1987;57:133-8
Reinforced heat-processed acrylic resin provisional restorations (Binkley and Irvin). 1987;57:689-93
Casting ring liner
An investigation of the potential biohazards associated with asbestos-substitute casting ring liners (Tulachka et al). 1987;57:108-12
Cavity preparation
Effect of cavity varnish on retention of cemented cast crowns (Felton et al). 1987;57:411-6
The efficacy of resin-compatible cavity varnishes in reducing dentin permeability to free monomer (Tjan et al). 1987;57:179-85
Smear removal agents: a quantitative study in vivo and in vitro (Meryon et al). 1987;57:174-9
Cement; *see also* **Adhesive**
Effect of cavity varnish on retention of cemented cast crowns (Felton et al). 1987;57:411-6
Effects of cementing on retention of a prefabricated screw post (Millstein et al). 1987;57:171-4
A method for uniform seating pressure on castings during cementation (Scrabeck et al). 1987;57:537-9
Minimizing problems in fitting, seating, and cementation of fixed prosthodontic retainers (Bell). 1987;57:266-70
Central incisor
Evaluation of the incisive papilla as a guide to anterior tooth position (Grave and Becker). 1987;57:712-4

Ceramic; *see also* **Ceramometal restorations**
Bonding of dental porcelain to ceramic-metal alloys (Uusalo et al). 1987;57:26-9
The cast glass-ceramic restoration (Malament and Grossman). 1987;57:674-83
Effect of porcelain thickness and type of metal-ceramic alloy on color (Jacobs et al). 1987;57:138-45
An investigation of the potential biohazards associated with asbestos-substitute casting ring liners (Tulachka et al). 1987;57:108-12
The microscopic appearance and effect of toothbrushing on extrinsically stained metal-ceramic restorations (Bativala et al). 1987;57:47-52
Potential health hazards of ceramic ring lining material (Davis). 1987;57:362-9

Ceramometal restorations
An alternate method for establishing porcelain margins (Edge and Maccarone). 1987;57:276-7
Comparison of compressive strength of solid and hollow pontic designs for ceramometal fixed partial dentures (Rosenstein et al). 1987;57:693-6
Sprue design and its effect on the castability of ceramometal alloys (Young et al). 1987;57:160-4

Cheek recontouring prosthesis
A technique for fabrication of a cheek recontouring prosthesis (Fattore et al). 1987;57:329-31

Chrome
A metal-based denture with soft liner to accommodate the severely resorbed mandibular alveolar ridge (Massad). 1987;57:707-11

Clay
Cast relationship made easy (Dunkin and St. Arnault). 1987;57:126 (Tips)

Cleft
Resin-bonded retainers with custom-made precision attachment for anterior alveolar ridge defect in patients with cleft (Cohen et al). 1987;57:78-81

Class I removable partial denture
A Kennedy class I removable partial denture with a resilient liner (Todd and Holt). 1987;57:247-9

Clicking; *see also* **Temporomandibular joint**
Prevalence of types of temporomandibular joint clickings in subjects with missing posterior teeth (Barghi et al). 1987;57:617-20

Clinical remount procedure
The effect of clinical remount procedures on the comfort and success of complete dentures (Firtell et al). 1987;57:53-7

Clutch surface change
Effect of clutch surface changes on the computerized pantographic reproducibility index and the Fischer angle (Dupas et al). 1987;57:625-30

Cobalt
A metal-based denture with soft liner to accommodate the severely resorbed mandibular alveolar ridge (Massad). 1987;57:707-11

Cold sterilization
Dimensional changes of elastomers during cold sterilization (Johansen and Stackhouse). 1987;57:233-6

Color
Effect of porcelain thickness and type of metal-ceramic alloy on color (Jacobs et al). 1987;57:138-45

Committee on Scientific Investigation of the American Academy of Restorative Dentistry
Report of the Committee on Scientific Investigation of the American Academy of Restorative Dentistry (Jendresen et al). 1987;57:734-64

Complete denture; *see also* **Denture**
The effect of clinical remount procedures on the comfort and success of complete dentures (Firtell et al). 1987;57:53-7
The influence of removable prosthodontic procedures and concepts on the esthetics of complete dentures (Curtis et al). 1987;57:315-23
The maxillary complete denture opposing natural teeth: problems and some solutions (Koper). 1987;57:704-7

Composite
Bond strength of composite to metal mediated by metal adhesive promoters (Tjan et al). 1987;57:550-4

Composite—cont'd
Bond strength of composite rebonded to previously unetched enamel surfaces (Sheth and Reinhardt). 1987;57:439-42
Dimensional stability of silver amalgam and composite used as core materials (Oliva and Lowe). 1987;57:554-9
Esthetic modification of removable partial denture teeth with light-cured composites (Weiner et al). 1987;57:381-4
A marriage of convenience: bonds of retention pins and composites (Federick). 1987;57:270-6
Microleakage: the effect of storage and cycling duration (Crim and Garcia-Godoy). 1987;57:574-6
A scanning electron microscope comparison of microfilled fixed prosthodontic resins (Strohaver and Mattie). 1987;57:559-65
Three-year clinical evaluation of composite formulations for posterior teeth (Feller et al). 1987;57:544-50
Use of a special matrix system for constructing amalgam and composite cores (Marshak et al). 1987;57:21-2

Compressive strength
Comparison of compressive strength of solid and hollow pontic designs for ceramometal fixed partial dentures (Rosenstein et al). 1987;57:693-6

Computerized pantographic reproducibility index
Effect of clutch surface changes on the computerized pantographic reproducibility index and the Fischer angle (Dupas et al). 1987;57:625-30

Condylar path
A comparison of various angles of the mandible with the condylar long axis (Laurell et al). 1987;57:369-74
The measurement and development of anterior guidance (Kohno and Nakano). 1987;57:620-5

Connector
A photoelastic study to determine the location of the nonrigid connector in a five-unit intermediate abutment prosthesis (Landry et al). 1987;57:454-7
Tensile strength analysis of midpontic soldering (Ferencz). 1987;57:696-703
Tensile strength of an alternative soldered connector (Moskowitz et al). 1987;57:301-6

Contact
The functional range of tooth contact in lateral gliding movements (Yaffe and Ehrlich). 1987;57:730-3
Occlusal contacts and tooth wear (Woda et al). 1987;57:85-93
The tooth contact sound as an analogue of the "quality of occlusion" (Fuller and West). 1987;57:236-43

Contamination
Saliva contamination and resin bonding of etched metal retainers (Cassidy and Storie). 1987;57:29-32

Core
Dimensional stability of silver amalgam and composite used as core materials (Oliva and Lowe). 1987;57:554-9

Coronomaxillary space
The coronomaxillary space: literature review and anatomic description (Arbree et al). 1987;57:186-90

Correspondence
Letters. 1987;57:254, 389-90, 661-2

Coupling
The influence of anterior coupling on mandibular movement (Brose and Tanquist). 1987;57:345-53

Craniomandibular function and dysfunction
Craniomandibular function and dysfunction. 1987;57:85-98, 215-32, 345-61, 488-506, 617-30, 723-33
Report of the Committee on Scientific Investigation of the American Academy of Restorative Dentistry (Jendresen et al). 1987;57:734-64

Cross-splinting
Cross-splinting a weakened tooth with a horizontal pin: a new method (Mondelli et al). 1987;57:442-5

Crown
Compressive strengths of a new foil and porcelain-fused-to-metal crowns (Brukl and Ocampo). 1987;57:404-10
Custom contoured temporary crowns (Williams). 1987;57:380-1
Effect of cavity varnish on retention of cemented cast crowns (Felton et al). 1987;57:411-6
The relationship of the position of crown margins to gingival health (Orkin et al). 1987;57:421-4

Cuspal fracture
Effects of composite restorations on resistance to cuspal fracture in posterior teeth (Joynt et al). 1987;57:431-5
Custom contouring
Custom contoured temporary crowns (Williams). 1987;57:380-1
Cycling duration
Microleakage: the effect of storage and cycling duration (Crim and Garcia-Godoy). 1987;57:574-6

D

Damaged teeth
Extraoral matrix for reconstruction of damaged teeth (Ulusoy). 1987;57:145-7
Deformity
Incidence of anterior ridge deformities in partially edentulous patients (Abrams et al). 1987;57:191-4
Dental implant
Dental implants. 1987;57:73-84, 198-214, 329-44, 475-87, 597-616, 715-22
Dental specialties
Perceived or actual overlap between the scope of prosthodontics and other recognized dental specialities (Landesman et al). 1987; 57:113-5
Dental stones
A comparison of the compatibility of elastomeric impression materials, type IV dental stones, and liquid media (Gerrow and Schneider). 1987;57:292-8
Dental technology
Dental technology. 1987;57:116-25, 247-51, 380-6, 520-7, 650-9, 765-71
Report of the Committee on Scientific Investigation of the American Academy of Restorative Dentistry (Jendresen et al). 1987;57: 734-64
Dentin
The efficacy of resin-compatible cavity varnishes in reducing dentin permeability to free monomer (Tjan et al). 1987;57:179-85
An evaluation of post length within the elastic limits of dentin (Leary et al). 1987;57:277-81
Immediate and long-term in vivo effects of polishing on enamel and dentin (Christensen and Bangerter). 1987;57:150-60
Dentition
The frequency of various molds in a sample of natural and artificial dentitions (Grave). 1987;57:194-7
Denture; *see also* **Denture base, Fixed partial denture; Removable partial denture**
Antibody titre changes in patients undergoing treatment for denture stomatitis (Fouche et al). 1987;57:587-91
Are anterior replacement teeth too small? (McArthur) 1987;57: 462-5
Denture plaque and palatal mucosa in denture stomatitis: scanning electron microscopic and microbiologic study (Catalan et al). 1987;57:581-6
Dimensional stability of dentures processed in boilable acrylic resins: a comparative study (Polyzois et al). 1987;57:639-47
The effect of clinical remount procedures on the comfort and success of complete dentures (Firtell et al). 1987;57:53-7
Evaluation of occlusal force in patients with obturator defects (Shipman). 1987;57:81-4
The frequency of various molds in a sample of natural and artificial dentitions (Grave). 1987;57:94-7
In vitro wear rates of three types of commercial denture tooth materials (Whitman et al). 1987;57:243-6
The influence of removable prosthodontic procedures and concepts on the esthetics of complete dentures (Curtis et al). 1987;57: 315-23
The maxillary complete denture opposing natural teeth: problems and some solutions (Koper). 1987;57:704-7
A metal-based denture with soft liner to accommodate the severely resorbed mandibular alveolar ridge (Massad). 1987;57:707-11
The relationship of drug use to denture functions and saliva flow rate in a geriatric population (Kreher et al). 1987;57:631-8
Saliva: a significant factor in removable prosthodontic treatment (Edgerton et al). 1987;57:57-66
Denture—cont'd
The staining characteristics, transverse strength, and microhardness of a visible light-cured denture base material (Khan et al). 1987;57:384-6
Denture base
The staining characteristics, transverse strength, and microhardness of a visible light-cured denture base material (Khan et al). 1987;57:384-6
Detergent
Improving reversible hydrocolloid impressions of subgingival areas (Nichols and Woelfel). 1987;57:11-4
Dies
Use of a specially formed drill in fixed prosthodontics (Driscoll and Allen). 1987;57:768-71
Dimensional stability
Dimensional stability of dentures processed in boilable acrylic resins: a comparative study (Polyzois et al). 1987;57:639-47
Dimensional stability of silver amalgam and composite used as core materials (Oliva and Lowe). 1987;57:554-9
Distal-extension denture
An altered-cast impression technique that eliminates conventional cast dissecting and impression boxing (Chen et al). 1987;57: 471-4
Drill
Use of a specially formed drill in fixed prosthodontics (Driscoll and Allen). 1987;57:768-71
Drugs
The relationship of drug use to denture functions and saliva flow rate in a geriatric population (Kreher et al). 1987;57:631-8
Durapatite
Evaluation of implanted durapatite particles in fresh extraction sockets to maintain the alveolar ridge in beagle dogs (Sherer et al). 1987;57:331-7

E

Eagle's syndrome
Ernest syndrome as a consequence of stylomandibular ligament injury: a report of 68 patients (Shankland). 1987;57:501-6
Edentulous patient
Autogenous bone grafts for atrophic edentulous mandibles: a final report (Curtis et al). 1987;57:73-8
Incidence of anterior ridge deformities in partially edentulous patients (Abrams et al). 1987;57:191-4
A tomographic study of the temporomandibular joint of edentulous patients (Hatjigiorgis et al). 1987;57:354-8
Tongue position in relation to edentulous mandibular impressions (Kotkin and Slabbert). 1987;57:458-62
Education
Research and education. 1987;57:99-115, 233-46, 362-79, 507-19, 631-49, 734-64
Elastic limits
An evaluation of post length within the elastic limits of dentin (Leary et al). 1987;57:277-81
Elastomer
A comparison of the compatibility of elastomeric impression materials, type IV dental stones, and liquid media (Gerrow and Schneider). 1987;57:292-8
Dimensional changes of elastomers during cold sterilization (Johansen and Stackhouse). 1987;57:233-6
A study of bubbles in a rubber elastomer manipulated under clinical conditions (Stackhouse et al). 1987;57:591-6
Electrodeposition
Effect of electrodeposition of gold on porcelain-to-metal bond strength (Daftary and Donovan). 1987;57:41-6
Electromyography
Influence of group function and canine guidance on electromyographic activity of elevator muscles (Manns et al). 1987;57:494-501
Electronic pantograph
Effect of clutch surface changes on the computerized pantographic reproducibility index and the Fischer angle (Dupas et al). 1987;57:625-30
An in vitro study of an electronic pantograph (Anderson et al). 1987;57:577-80

Elevator muscle
Influence of group function and canine guidance on electromyographic activity of elevator muscles (Manns et al). 1987;57:494-501
Enamel
Bond strength of composite rebonded to previously unetched enamel surfaces (Sheth and Reinhardt). 1987;57:439-42
Immediate and long-term in vivo effects of polishing on enamel and dentin (Christensen and Bangerter). 1987;57:150-60
Microscopic examination of resin bond to enamel and retainer with a phosphate monomer resin (Ferrari et al). 1987;57:298-301
Endodontics
Reconstructive materials for endodontically treated teeth (Taleghani and Morgan). 1987;57:446-9
Ernest syndrome
Ernest syndrome as a consequence of stylomandibular ligament injury: a report of 68 patients (Shankland). 1987;57:501-6
Erratum
The effects of surface texture and grooving on the retention of cast crowns (Witmer et al) (1986;56:421-4). 1987;57:379
Esthetics
Esthetic modification of removable partial denture teeth with light-cured composites (Weiner et al). 1987;57:381-4
The influence of removable prosthodontic procedures and concepts on the esthetics of complete dentures (Curtis et al). 1987;57:315-23
Etching
The continuous brushing acid-etch technique (Baharav et al). 1987;57:147-9
Distribution of acid-etched, fixed, and removable prostheses in dental patients (Gustavsen and Katz). 1987;57:374-9
Saliva contamination and resin bonding of etched metal retainers (Cassidy and Storie). 1987;57:29-32
Extraction socket
Evaluation of implanted durapatite particles in fresh extraction sockets to maintain the alveolar ridge in beagle dogs (Sherer et al). 1987;57:331-7
Extraoral matrix
Extraoral matrix for reconstruction of damaged teeth (Ulusoy). 1987;57:145-7
Extrinsic staining
The microscopic appearance and effect of toothbrushing on extrinsically stained metal-ceramic restorations (Bativala et al). 1987;57:47-52

F

Fabrication
The maxillary complete denture opposing natural teeth: problems and some solutions (Koper). 1987;57:704-7
Facial moulage
A technique for making a facial moulage (Moergeli). 1987;57:253 (Tips)
Finish
Evaluation of finishing techniques for assessing surface roughness of amalgam restorations (Ulusoy et al). 1987;57:286-92
Fischer angle
Effect of clutch surface changes on the computerized pantographic reproducibility index and the Fischer angle (Dupas et al). 1987;57:625-30
Fitting
Minimizing problems in fitting, seating, and cementation of fixed prosthodontic retainers (Bell). 1987;57:266-70
Fixed partial denture; *see also* **Fixed prosthodontics**
Comparison of compressive strength of solid and hollow pontic designs for ceramometal fixed partial dentures (Rosenstein et al). 1987;57:693-6
Improved fixed partial denture soldering (St. Arnault et al). 1987;57:528-9 (Tips)
Incidence of impression material found in the gingival sulcus after impression procedure for fixed partial dentures (Marshak et al). 1987;57:306-8
Tensile strength of an alternative soldered connector (Moskowitz et al). 1987;57:301-6
Fixed prosthodontics
Distribution of acid-etched, fixed, and removable prostheses in dental patients (Gustavsen and Katz). 1987;57:374-9
Fixed prosthodontics. 1987;57:1-52, 133-85, 261-308, 397-457, 537-80, 669-703
Minimizing problems in fitting, seating, and cementation of fixed prosthodontic retainers (Bell). 1987;57:266-70
Use of a specially formed drill in fixed prosthodontics (Driscoll and Allen). 1987;57:768-71
Foil
Compressive strengths of a new foil and porcelain-fused-to-metal crowns (Brukl and Ocampo). 1987;57:404-10
Fracture
Effects of composite restorations on resistance to cuspal fracture in posterior teeth (Joynt et al). 1987;57:431-5
Extraoral matrix for reconstruction of damaged teeth (Ulusoy). 1987;57:145-7
Fracture strength
Comparison of fracture strength of porcelain-veneered-to-high noble and base metal alloys (Barghi et al). 1987;57:23-6
Framework
Metal framework design for an onlay removable partial denture (Todd and Holt). 1987;57:116-7
The segmented framework removable partial denture (Hansen and Singer). 1987;57:765-8
Free monomer
The efficacy of resin-compatible cavity varnishes in reducing dentin permeability to free monomer (Tjan et al). 1987;57:179-85
Functional range
The functional range of tooth contact in lateral gliding movements (Yaffe and Ehrlich). 1987;57:730-3
Furcation
Considerations for furcation treatment. Part II: periodontal therapy (Baima). 1987;57:400-4
Odontic trisection: an alternative therapy (Fournier). 1987;57:397-400

G

Geriatrics
Distribution of acid-etched, fixed, and removable prostheses in dental patients (Gustavsen and Katz). 1987;57:374-9
The relationship of drug use to denture functions and saliva flow rate in a geriatric population (Kreher et al). 1987;57:631-8
Gingiva
The relationship of the position of crown margins to gingival health (Orkin et al). 1987;57:421-4
Gingival margin
Restorative margins and periodontal health: a new look at an old perspective (Block). 1987;57:683-9
Gingival sulcus
Incidence of impression material found in the gingival sulcus after impression procedure for fixed partial dentures (Marshak et al). 1987;57:306-8
Glass-ceramic restoration
The cast glass-ceramic restoration (Malament and Grossman). 1987;57:674-83
Gliding movement
The functional range of tooth contact in lateral gliding movements (Yaffe and Ehrlich). 1987;57:730-3
Glossectomy
Effect of a maxillary glossectomy prosthesis on articulation and swallowing (Davis et al). 1987;57:715-9
An interim prosthesis for the glossectomy patient (Izdebski et al). 1987;57:608-11
Gold
Effect of electrodeposition of gold on porcelain-to-metal bond strength (Daftary and Donovan). 1987;57:41-6
Factors affecting the retention and fit of gold castings (Marker et al). 1987;57:425-30
Restoration of posterior pulpless teeth: amalgam overlay versus cast gold onlay restoration (Liberman et al). 1987;57:540-3
Strength properties of soldered joints for a gold-palladium alloy and a palladium alloy (Lorenzana et al). 1987;57:450-4

Gonial angle
A comparison of various angles of the mandible with the condylar long axis (Laurell et al). 1987;57:369-74
Graft
Autogenous bone grafts for atrophic edentulous mandibles: a final report (Curtis et al). 1987;57:73-8
Graphics
The occlusalgraph: a graphic representation of photocclusion data (Amsterdam et al). 1987;57:94-8
Group function
The functional range of tooth contact in lateral gliding movements (Yaffe and Ehrlich). 1987;57:730-3
Influence of group function and canine guidance on electromyographic activity of elevator muscles (Manns et al). 1987;57:494-501
Guide
Surgical placement guide for use with osseointegrated implants (Edge). 1987;57:719-22

H

Head and neck cancer
Nutritional considerations of the head and neck cancer patient: some correlations in a retrospective study (Jackson et al). 1987;57:475-8
Heat-processing
Reinforced heat-processed acrylic resin provisional restorations (Binkley and Irvin). 1987;57:689-93
Hemisection
Considerations for furcation treatment. Part II: periodontal therapy (Baima). 1987;57:400-4
Horizontal pin
Cross-splinting a weakened tooth with a horizontal pin: a new method (Mondelli et al). 1987;57:442-5
Hybrid matrix retainer
A hybrid matrix retainer for two-surface proximal restorations (Re and Kaiser). 1987;57:252-3 (Tips)
Hydrocolloid impression
Improving reversible hydrocolloid impressions of subgingival areas (Nichols and Woelfel). 1987;57:11-4
Hydroxyapatite
Fabrication of a sectional surgical stent for hydroxyapatite augmentation for the edentulous residual ridge (Yard and Latta). 1987;57:482-4

I

Illumination
Intraoral dental lights: test and evaluation (Young et al). 1987;57:99-107
Implant
Dental implants. 1987;57:73-74, 198-214, 329-44, 475-87, 597-616, 715-22
A reline procedure for prostheses supported by ramus frame and mandibular staple implants (Rodriguez et al). 1987;57:658-9
Surgical placement guide for use with osseointegrated implants (Edge). 1987;57:719-22
Transfer impression for accurate adjustment of a metal coping insert for the submerged implant (Burns et al). 1987;57:484-7
Impression
An altered-cast impression technique that eliminates conventional cast dissecting and impression boxing (Chen et al). 1987;57:471-4
A comparison of the compatibility of elastomeric impression materials, type IV dental stones, and liquid media (Gerrow and Schneider). 1987;57:292-8
Improving reversible hydrocolloid impressions of subgingival areas (Nichols and Woelfel). 1987;57:11-4
Incidence of impression material found in the gingival sulcus after impression procedure for fixed partial dentures (Marshak et al). 1987;57:306-8
A study of bubbles in a rubber elastomer manipulated under clinical conditions (Stackhouse et al). 1987;57:591-6
Tongue position in relation to edentulous mandibular impressions (Kotkin and Slabbert). 1987;57:458-62
Impression—cont'd
Transfer impression for accurate adjustment of a metal coping insert for the submerged implant (Burns et al). 1987;57:484-7
Incisal angle
The measurement and development of anterior guidance (Kohno and Nakano). 1987;57:620-5
Incisive papilla
Evaluation of the incisive papilla as a guide to anterior tooth position (Grave and Becker). 1987;57:712-4
Infection
Bacterial penetration around amalgam restorations (Fayyad and Ball). 1987;57:571-4
Response of processed resilient denture liners to *Candida albicans* (Burns et al). 1987;57:507-12
Interim prosthesis
An interim prosthesis for the glossectomy patient (Izdebski et al). 1987;57:608-11
Internal derangement; *see also* **Temporomandibular joint**
Magnetic resonance imaging in confirming internal derangement of the temporomandibular joint (Cirbus et al). 1987;57:488-94
Interocclusal index
A method for uniform seating pressure on castings during cementation (Scrabeck et al). 1987;57:537-9
Intraoral dental light
Intraoral dental lights: test and evaluation (Young et al). 1987;57:99-107

J

Jaw movement
A review of masticatory muscle function (Wood). 1987;57:222-32
Joint, temporomandibular; *see* **Temporomandibular joint**

K

Kennedy class I partial denture
A Kennedy class I removable partial denture with a resilient liner (Todd and Holt). 1987;57:247-9

L

Laryngectomy
A custom speech valve retainer for the laryngectomee (Andres et al). 1987;57:208-14
A custom tracheostoma valve retainer for the laryngectomy patient (Jacob and Bowman). 1987;57:479-82
Leakage
Microleakage: the effect of storage and cycling duration (Crim and Garcia-Godoy). 1987;57:574-6
Letters
Letters. 1987;57:254, 389-90, 661-2
Light
Intraoral dental lights: test and evaluation (Young et al). 1987;57:99-107
Light curing
Esthetic modification of removable partial denture teeth with light-cured composites (Weiner et al). 1987;57:381-4
The staining characteristics, transverse strength, and microhardness of a visible light-cured denture base material (Khan et al). 1987;57:384-6
Liner
An investigation of the potential biohazards associated with asbestos-substitute casting ring liners (Tulachka et al). 1987;57:108-12
A Kennedy class I removable partial denture with a resilient liner (Todd and Holt). 1987;57:247-9
A metal-based denture with soft liner to accommodate the severely resorbed mandibular alveolar ridge (Massad). 1987;57:707-11
Potential health hazards of ceramic ring lining material (Davis). 1987;57:362-9
Response of processed resilient denture liners to *Candida albicans* (Burns et al). 1987;57:507-12
Liquid media
A comparison of the compatibility of elastomeric impression materials, type IV dental stones, and liquid media (Gerrow and Schneider). 1987;57:292-8

Loops, retention
Adding retention loops to partial dentures (Lieberman and Weinstein). 1987;57:526-7
Lost salt procedure
Bond strengths of the lost salt procedure: a new retention method for resin-bonded fixed prostheses (Moon). 1987;57:435-9
Luting media; *see also specific medium*
A comparison of bond strengths of adhesive cast restorations using different designs, bonding agents, and luting resins (Pegoraro and Barrack). 1987;57:133-8

M

Magnetic resonance imaging
Magnetic resonance imaging in confirming internal derangement of the temporomandibular joint (Cirbus et al). 1987;57:488-94
Mandible
Autogenous bone grafts for atrophic edentulous mandibles: a final report (Curtis et al). 1987;57:73-8
A comparison of various angles of the mandible with the condylar long axis (Laurell et al). 1987;57:369-74
The influence of anterior coupling on mandibular movement (Brose and Tanquist). 1987;57:345-53
Tongue position in relation to edentulous mandibular impressions (Kotkin and Slabbert). 1987;57:458-62
Mandibular alveolar ridge
A metal-based denture with soft liner to accommodate the severely resorbed mandibular alveolar ridge (Massad). 1987;57:707-11
Mandibular staple implant
A reline procedure for prostheses supported by ramus frame and mandibular staple implants (Rodriguez et al). 1987;57:658-9
Margin
An alternate method for establishing porcelain margins (Edge and Maccarone). 1987;57:276-7
The relationship of the position of crown margins to gingival health (Orkin et al). 1987;57:421-4
Restorative margins and periodontal health: a new look at an old perspective (Block). 1987;57:683-9
Masticatory muscle
Influence of group function and canine guidance on electromyographic ativity of elevator muscles (Manns et al). 1987;57:494-501
A review of masticatory muscle function (Wood). 1987;57:222-32
Matrix
Extraoral matrix for reconstruction of damaged teeth (Ulusoy). 1987;57:145-7
A hybrid matrix retainer for two-surface proximal restorations (Re and Kaiser). 1987;57:252-3 (Tips)
Matrix band application for the occlusolingual or occlusobuccal amalgam restoration (Gildersleeve et al). 1987;57:387-8 (Tips)
Use of a special matrix system for constructing amalgam and composite cores (Marshak et al). 1987;57:21-2
Maxillary denture; *see also* **Maxillofacial prosthetics**
The coronomaxillary space: literature review and anatomic description (Arbree et al). 1987;57:186-90
Effect of a maxillary glossectomy prosthesis on articulation and swallowing (Davis et al). 1987;57:715-9
Evaluation of the incisive papilla as a guide to anterior tooth position (Grave and Becker). 1987;57:712-4
The maxillary complete denture opposing natural teeth: problems and some solutions (Koper). 1987;57:704-7
Maxillary resection
Physiologic responses to maxillary resection and subsequent obturation (Minsley et al). 1987;57:338-44
Maxillofacial prosthetics; *see also* **Maxillary denture**
Alternative prosthodontic technique for tissue-integrated prostheses (Rasmussen). 1987;57:198-204
Maxillofacial prosthetics. 1987;57:73-84, 198-214, 329-44, 475-87, 597-616, 715-22
An overview of the maxillofacial prosthesis as a speech rehabilitation aid (Groetsema). 1987;57:204-8
Metal
Bond strength of composite to metal mediated by metal adhesive promoters (Tjan et al). 1987;57:550-4

Metal—cont'd
Bonding of dental porcelain to ceramic-metal alloys (Usalo et al). 1987;57:26-9
Bone-metal interface in osseointegration (Albrektsson and Jacobsson). 1987;57:597-607
Comparison of fracture strength of porcelain-veneered-to-high noble and base metal alloys (Barghi et al). 1987;57:23-6
Compressive strengths of a new foil and porcelain-fused-to-metal crowns (Brukl and Ocampo). 1987;57:404-10
Effect of electrodeposition of gold on porcelain-to-metal bond strength (Daftary and Donovan). 1987;57:41-6
Effect of porcelain thickness and type of metal-ceramic alloy on color (Jacobs et al). 1987;57:138-45
Improved adhesion of denture acrylic resins to base metal alloys (Zurasky and Duke). 1987;57:520-4
Metal framework design for an onlay removable partial denture (Todd and Holt). 1987;57:116-7
A metal-based denture with soft liner to accommodate the severely resorbed mandibular alveolar ridge (Massad). 1987;57:707-11
The microscopic appearance and effect of toothbrushing on extrinsically stained metal-ceramic restorations (Bativala et al). 1987;57:47-52
Reinforced heat-processed acrylic resin provisional restorations (Binkley and Irvin). 1987;57:689-93
Transfer impression for accurate adjustment of a metal coping insert for the submerged implant (Burns et al). 1987;57:484-7
Microbiology
Denture plaque and palatal mucosa in denture stomatitis: scanning electron microscopic and microbiologic study (Catalan et al). 1987;57:581-6
Microleakage
Microleakage: the effect of storage and cycling duration (Crim and Garcia-Godoy). 1987;57:574-6
Microscopy
Microleakage: the effect of storage and cycling duration (Crim and Garcia-Godoy). 1987;57:574-6
Microscopic examination of resin bond to enamel and retainer with a phosphate monomer resin (Ferrari et al). 1987;57:298-301
A scanning electron microscope comparison of microfilled fixed prosthodontic resins (Strohaver and Mattie). 1987;57:559-65
The staining characteristics, transverse strength, and microhardness of a visible light-cured denture base material (Khan et al). 1987;57:384-6
Microwave
Microwave polymerization of acrylic resins used in dental prostheses (De Clerck). 1987;57:650-8
Midpontic soldering
Tensile strength analysis of midpontic soldering (Ferencz). 1987;57:696-703
Missing teeth
Prevalence of types of temporomandibular joint clickings in subjects with missing posterior teeth (Barghi et al). 1987;57:617-20
Modeling clay
Cast relationship made easy (Dunkin and St. Arnault). 1987;57:126 (Tips)
Molds
The frequency of various molds in a sample of natural and artificial dentitions (Grave). 1987;57:194-7
Monomer
The efficacy of resin-compatible cavity varnishes in reducing dentin permeability to free monomer (Tjan et al). 1987;57:179-85
Microscopic examination of resin bond to enamel and retainer with a phosphate monomer resin (Ferrari et al). 1987;57:298-301
Monoplane occlusion
Functional modification of acrylic resin monoplane occlusions (Mulcahy). 1987;57:465-70
Moulage
A technique for making a facial moulage (Moergeli). 1987;57:253 (Tips)
Mouth rehabilitation
A practical approach to full mouth rehabilitation (Binkley and Binkley). 1987;57:261-6

Mucosa
Denture plaque and palatal mucosa in denture stomatitis: scanning electron microscopic and microbiologic study (Catalan et al). 1987;57:581-6
Muscle function
Influence of group function and canine guidance on electromyographic activity of elevator muscles (Manns et al). 1987;57:494-501
A review of masticatory muscle function (Wood). 1987;57:222-32

N

Nasopharyngeal airway tube
A technique for making a facial moulage (Moergeli). 1987;57:253 (Tips)
Natural dentition
The frequency of various molds in a sample of natural and artificial dentitions (Grave). 1987;57:194-7
Neck cancer
Nutritional considerations of the head and neck cancer patient: some correlations in a retrospective study (Jackson et al). 1987;57:475-8
Nocturnal bruxism
The sleep-wear syndrome (Colquitt). 1987;57:33-41
Nonrigid connector
A photoelastic study to determine the location of the nonrigid connector in a five-unit intermediate abutment prosthesis (Landry et al). 1987;57:454-7
Nutrition
Nutritional considerations of the head and neck cancer patient: some correlations in a retrospective study (Jackson et al). 1987;57:475-8

O

Obturator
Evaluation of occlusal force in patients with obturator defects (Shipman). 1987;57:81-4
Physiologic responses to maxillary resection and subsequent obturation (Minsley et al). 1987;57:338-44
Occlusal force
Evaluation of occlusal force in patients with obturator defects (Shipman). 1987;57:81-4
Occlusal splint
A simplified technique for occlusal splint fabrication (Haddix). 1987;57:249-51
Occlusalgraph
The occlusalgraph: a graphic representation of photocclusion data (Amsterdam et al). 1987;57:94-8
Occlusion
Evaluation of occlusal force in patients with obturator defects (Shipman). 1987;57:81-4
Functional modification of acrylic resin monoplane occlusions (Mulcahy). 1987;57:465-70
The functional range of tooth contact in lateral gliding movements (Yaffe and Ehrlich). 1987;57:730-3
Occlusal contacts and tooth wear (Woda et al). 1987;57:85-93
The tooth contact sound as an analogue of the "quality of occlusion" (Fuller and West). 1987;57:236-43
Occlusolingual or occlusobuccal amalgam restoration
Matrix band application for the occlusolingual or occlusobuccal amalgam restoration (Gildersleeve et al). 1987;57:387-8 (Tips)
Odontic trisection
Odontic trisection: an alternative therapy (Fournier). 1987;57:397-400
Onlay
Metal framework design for an onlay removable partial denture (Todd and Holt). 1987;57:116-7
Restoration of posterior pulpless teeth: amalgam overlay versus cast gold onlay restoration (Liberman et al). 1987;57:540-3
A simplified technique for the tooth preparation of onlay castings (Seymour). 1987;57:9-11
Operative dentistry
Fixed prosthodontics and operative dentistry. 1987;57:1-52, 133-85, 261-308, 397-457, 537-80, 669-703
Orbital prosthesis
Macrocellular silicone foam for mechanically retaining orbital prostheses (Townend et al). 1987;57:611-6
Osseointegration
Bone-metal interface in osseointegration (Albrektsson and Jacobsson). 1987;57:597-607
Surgical placement guide for use with osseointegrated implants (Edge). 1987;57:719-22
Overdenture
Vertical alveolar bone changes related to overdenture abutment teeth (Walters). 1987;57:309-14
Overlapping specialties
Perceived or actual overlap between the scope of prosthodontics and other recognized dental specialities (Landesman et al). 1987;57:113-5
Overlay
Restoration of posterior pulpless teeth: amalgam overlay versus cast gold onlay restoration (Liberman et al). 1987;57:540-3

P

Pad stop
A metal-based denture with soft liner to accommodate the severely resorbed mandibular alveolar ridge (Massad). 1987;57:707-11
Palatal mucosa
Denture plaque and palatal mucosa in denture stomatitis: scanning electron microscopic and microbiologic study (Catalan et al). 1987;57:581-6
Palate
Effect of a maxillary glossectomy prosthesis on articulation and swallowing (Davis et al). 1987;57:715-9
Palladium
Strength properties of soldered joints for a gold-palladium alloy and a palladium alloy (Lorenzana et al). 1987;57:450-4
Tensile strength of postceramic solder joints with a palladium-silver alloy (Boudrias and Nicholls). 1987;57:165-71
Pantograph
Effect of clutch surface changes on the computerized pantographic reproducibility index and the Fischer angle (Dupas et al). 1987;57:625-30
An in vitro study of an electronic pantograph (Anderson et al). 1987;57:577-80
Papilla
Evaluation of the incisive papilla as a guide to anterior tooth position (Grave and Becker). 1987;57:712-4
Parallelometer
Recording and reproducing the tilt of a cast on a surveyor (Steas). 1987;57:121-5
Partial denture; *see* **Fixed partial denture; Removable partial denture**
Periodontics
Considerations for furcation treatment. Part II: periodontal therapy (Baima). 1987;57:400-4
Periodontal attachment loss associated with proximal tooth restorations (Chen et al). 1987;57:416-20
Restorative margins and periodontal health: a new look at an old perspective (Block). 1987;57:683-9
Root stresses with tapered-end post design in periodontally compromised teeth (Pao et al). 1987;57:281-6
Report of the Committee on Scientific Investigation of the American Academy of Restorative Dentistry (Jendresen et al). 1987;57:734-64
Phosphate monomer resin
Microscopic examination of resin bond to enamel and retainer with a phosphate monomer resin (Ferrari et al). 1987;57:298-301
Photocclusion
The occlusalgraph: a graphic representation of photocclusion data (Amsterdam et al). 1987;57:94-8
Photoelasticity
A photoelastic study to determine the location of the nonrigid connector in a five-unit intermediate abutment prosthesis (Landry et al). 1987;57:454-7

Pin
Cross-splinting a weakened tooth with a horizontal pin: a new method (Mondelli et al). 1987;57:442-5
A marriage of convenience: bonds of retention pins and composites (Federick). 1987;57:270-6
Retentive strength of pins cut with rotary instruments (Richeson and Sarrett). 1987;57:14-6
Placement guide
Surgical placement guide for use with osseointegrated implants (Edge). 1987;57:719-22
Plaque
The cast glass-ceramic restoration (Malament and Grossman). 1987;57:674-83
Denture plaque and palatal mucosa in denture stomatitis: scanning electron microscopic and microbiologic study (Catalan et al). 1987;57:581-6
Polishing
Immediate and long-term in vivo effects of polishing on enamel and dentin (Christensen and Bangerter). 1987;57:150-60
Polymerization
Microwave polymerization of acrylic resins used in dental prostheses (De Clerck). 1987;57:650-8
Pontics
Comparison of compressive strength of solid and hollow pontic designs for ceramometal fixed partial dentures (Rosenstein et al). 1987;57:693-6
Tensile strength analysis of midpontic soldering (Ferencz). 1987;57:696-703
Porcelain
An alternate method for establishing porcelain margins (Edge and Maccarone). 1987;57:276-7
Bonding of dental porcelain to ceramic-metal alloys (Uusalo et al). 1987;57:26-9
Comparison of fracture strength of porcelain-veneered-to-high noble and base metal alloys (Barghi et al). 1987;57:23-6
Compressive strengths of a new foil and porcelain-fused-to-metal crowns (Brukl and Ocampo). 1987;57:404-10
Effect of electrodeposition of gold on porcelain-to-metal bond strength (Daftary and Donovan). 1987;57:41-6
Effect of porcelain thickness and type of metal-ceramic alloy on color (Jacobs et al). 1987;57:138-45
Post
Effects of cementing on retention of a prefabricated screw post (Millstein et al). 1987;57:171-4
An evaluation of post length within the elastic limits of dentin (Leary et al). 1987;57:277-81
Root stresses with tapered-end post design in periodontally compromised teeth (Pao et al). 1987;57:281-6
Posterior teeth
Effects of composite restorations on resistance to cuspal fracture in posterior teeth (Joynt et al). 1987;57:431-5
Prefabrication
Effects of cementing on retention of a prefabricated screw post (Millstein et al). 1987;57:171-4
Prenatal development
Prenatal developmental process of human temporomandibular joint (Morimoto et al). 1987;57:723-30
Preventive dentistry
Report of the Committee on Scientific Investigation of the American Academy of Restorative Dentistry (Jendresen et al). 1987;57:734-64
Prosthesis; *see also specific prosthesis*
Bond strengths of the lost salt procedure: a new retention method for resin-bonded fixed prostheses (Moon). 1987;57:435-9
Distribution of acid-etched, fixed, and removable prostheses in dental patients (Gustavsen and Katz). 1987;57:374-9
Effect of a maxillary glossectomy prosthesis on articulation and swallowing (Davis et al). 1987;57:715-9
An interim prosthesis for the glossectomy patient (Izdebski et al). 1987;57:608-11
Macrocellular silicone foam for mechanically retaining orbital prostheses (Townend et al). 1987;57:611-6
Microwave polymerization of acrylic resins used in dental prostheses (De Clerck). 1987;57:650-8
Prosthesis—cont'd
A photoelastic study to determine the location of the nonrigid connector in a five-unit intermediate abutment prosthesis (Landry et al). 1987;57:454-7
A reline procedure for prostheses supported by ramus frame and mandibular staple implants (Rodriguez et al). 1987;57:658-9
A technique for fabrication of a cheek recontouring prosthesis (Fattore et al). 1987;57:329-31
Prosthodontics
Alternative prosthodontic technique for tissue-integrated prostheses (Rasmussen). 1987;57:198-204
Perceived or actual overlap between the scope of prosthodontics and other recognized dental specialities (Landesman et al). 1987;57:113-5
Use of a specially formed drill in fixed prosthodontics (Driscoll and Allen). 1987;57:768-71
Provisional restoration
Reinforced heat-processed acrylic resin provisional restorations (Binkley and Irvin). 1987;57:689-93
Pulp
Biocompatibility of surface-sealed dental materials against exposed pulps (Cox et al). 1987;57:1-8
Report of the Committee on Scientific Investigation of the American Academy of Restorative Dentistry (Jendresen et al). 1987;57:734-64
Pulpless teeth
Restoration of posterior pulpless teeth: amalgam overlay versus cast gold onlay restoration (Liberman et al). 1987;57:540-3

Q

Quenching
The effect of the temperature at quenching on the mechanical properties of casting alloys (DuBois et al). 1987;57:566-71

R

Radiograph
A comparison of various angles of the mandible with the condylar long axis (Laurell et al). 1987;57:369-74
Ramus frame
A reline procedure for prostheses supported by ramus frame and mandibular staple implants (Rodriguez et al). 1987;57:658-9
Readers' round table
Letters. 1987;57:254, 389-90, 661-2
Reattachment
Procedure to prevent reattachment of casts to alternate articulators by mistake (Eichhold). 1987;57:388 (Tips)
Reconstruction
Extraoral matrix for reconstruction of damaged teeth (Ulusoy). 1987;57:145-7
A practical approach to full mouth rehabilitation (Binkley and Binkley). 1987;57:261-6
Reconstructive materials for endodontically treated teeth (Taleghani and Morgan). 1987;57:446-9
Recontouring
A technique for fabrication of a cheek recontouring prosthesis (Fattore et al). 1987;57:329-31
Rehabilitation
An overview of the maxillofacial prosthesis as a speech rehabilitation aid (Groetsema). 1987;57:204-8
A practical approach to full mouth rehabilitation (Binkley and Binkley). 1987;57:261-6
Reinforced heat-processed acrylic resin
Reinforced heat-processed acrylic resin provisional restorations (Binkley and Irvin). 1987;57:689-93
Relief
A metal-based denture with soft liner to accommodate the severely resorbed mandibular alveolar ridge (Massad). 1987;57:707-11
Reline
Evaluation of hard direct reline resins (Bunch et al). 1987;57:512-9
A reline procedure for prostheses supported by ramus frame and mandibular staple implants (Rodriguez et al). 1987;57:658-9

Remount procedure
The effect of clinical remount procedures on the comfort and success of complete dentures (Firtell et al). 1987;57:53-7
Removable partial denture; *see also* **Removable prosthodontics**
Abutment tooth movement related to fit of a removable partial denture (Eick et al). 1987;57:66-72
Adding retention loops to partial dentures (Lieberman and Weinstein). 1987;57:526-7
An altered-cast impression technique that eliminates conventional cast dissecting and impression boxing (Chen et al). 1987;57:471-4
Distribution of acid-etched, fixed, and removable prostheses in dental patients (Gustavsen and Katz). 1987;57:374-9
Esthetic modification of removable partial denture teeth with light-cured composites (Weiner et al). 1987;57:381-4
A Kennedy class I removable partial denture with a resilient liner (Todd and Holt). 1987;57:247-9
Metal framework design for an onlay removable partial denture (Todd and Holt). 1987;57:116-7
The segmented framework removable partial denture (Hansen and Singer). 1987;57:765-8
Removable prosthodontics; *see also* **Removable partial denture**
The influence of removable prosthodontic procedures and concepts on the esthetics of complete dentures (Curtis et al). 1987;57:315-23
Removable prosthodontics. 1987;57:53-72, 186-97, 309-28, 458-74, 581-96, 704-14
Saliva: a significant factor in removable prosthodontic treatment (Edgerton et al). 1987;57:57-66
A silicone rubber spacer for processed resilient liner in removable prosthodontics (Bolouri). 1987;57:117-21
Replacement teeth; *see also* **Artificial teeth; Dentures**
Are anterior replacement teeth too small? (McArthur) 1987;57:462-5
Reproducibility index
Effect of clutch surface changes on the computerized pantographic reproducibility index and the Fischer angle (Dupas et al). 1987;57:625-30
Research and education
Research and education. 1987;57:99-115, 233-46, 362-79, 507-19, 631-49, 734-64
Resection
Odontic trisection: an alternative therapy (Fournier). 1987;57:397-400
Physiologic responses to maxillary resection and subsequent obturation (Minsley et al). 1987;57:338-44
Residual ridge
Fabrication of a sectional surgical stent for hydroxyapatite augmentation for the edentulous residual ridge (Yard and Latta). 1987;57:482-4
Resilient liner
A Kennedy class I removable partial denture with a resilient liner (Todd and Holt). 1987;57:247-9
Response of processed resilient denture liners to *Candida albicans* (Burns et al). 1987;57:507-12
A silicone rubber spacer for processed resilient liner in removable prosthodontics (Bolouri). 1987;57:117-21
Resin
Bond strengths of the lost salt procedure: a new retention method for resin-bonded fixed prostheses (Moon). 1987;57:435-9
A comparison of bond strengths of adhesive cast restorations using different designs, bonding agents, and luting resins (Pegoraro and Barrack). 1987;57:133-8
Dimensional stability of dentures processed in boilable acrylic resins: a comparative study (Polyzois et al). 1987;57:639-47
Effects of composite restorations on resistance to cuspal fracture in posterior teeth (Joynt et al). 1987;57:431-5
The efficacy of resin-compatible cavity varnishes in reducing dentin permeability to free monomer (Tjan et al). 1987;57:179-85
Evaluation of hard direct reline resins (Bunch et al). 1987;57:512-9
Functional modification of acrylic resin monoplane occlusions (Mulcahy). 1987;57:465-70
Resin—cont'd
Improved adhesion of denture acrylic resins to base metal alloys (Zurasky and Duke). 1987;57:520-4
Microleakage: the effect of storage and cycling duration (Crim and Garcia-Godoy). 1987;57:574-6
Microscopic examination of resin bond to enamel and retainer with a phosphate monomer resin (Ferrari et al). 1987;57:298-301
Microwave polymerization of acrylic resins used in dental prostheses (De Clerck). 1987;57:65[illegible]
Reinforced heat-processed acrylic resin provisional restorations (Binkley and Irvin). 1987;57:689-93
Resin-bonded retainers with custom-made precision attachment for anterior alveolar ridge defect in patients with cleft (Cohen et al). 1987;57:78-81
Saliva contamination and resin bonding of etched metal retainers (Cassidy and Storie). 1987;57:29-32
A scanning electron microscope comparison of microfilled fixed prosthodontic resins (Strohaver and Mattie). 1987;57:559-65
Resistance
In vitro resistance of extensive amalgam restorations using various retention methods (Plasmans et al). 1987;57:16-20
Resorption
A metal-based denture with soft liner to accommodate the severely resorbed mandibular alveolar ridge (Massad). 1987;57:707-11
Restoration
Bacterial penetration around amalgam restorations (Fayyad and Ball). 1987;57:571-4
Biocompatibility of surface-sealed dental materials against exposed pulps (Cox et al). 1987;57:1-8
The cast glass-ceramic restoration (Malament and Grossman). 1987;57:674-83
A comparison of bond strengths of adhesive cast restorations using different designs, bonding agents, and luting resins (Pegoraro and Barrack). 1987;57:133-8
Effects of composite restorations on resistance to cuspal fracture in posterior teeth (Joynt et al). 1987;57:431-5
Evaluation of finishing techniques for assessing surface roughness of amalgam restorations (Ulusoy et al). 1987;57:286-92
A hybrid matrix retainer for two-surface proximal restorations (Re and Kaiser). 1987;57:252-3 (Tips)
Matrix band application for the occlusolingual or occlusobuccal amalgam restoration (Gildersleeve et al). 1987;57:387-8 (Tips)
A method for uniform seating pressure on castings during cementation (Scrabeck et al). 1987;57:537-9
The microscopic appearance and effect of toothbrushing on extrinsically stained metal-ceramic restorations (Bativala et al). 1987;57:47-52
Periodontal attachment loss associated with proximal tooth restorations (Chen et al). 1987;57:416-20
Reconstructive materials for endodontically treated teeth (Taleghani and Morgan). 1987;57:446-9
Reinforced heat-processed acrylic resin provisional restorations (Binkley and Irvin). 1987;57:689-93
Report of the Committee on Scientific Investigation of the American Academy of Restorative Dentistry (Jendresen et al). 1987;57:734-64
Restoration of posterior pulpless teeth: amalgam overlay versus cast gold onlay restoration (Liberman et al). 1987;57:540-3
Restorative margins and periodontal health: a new look at an old perspective (Block). 1987;57:683-9
Smear removal agents: a quantitative study in vivo and in vitro (Meryon et al). 1987;57:174-9
A study of procedures for burnishing amalgam restorations (Bauer). 1987;57:669-73
In vitro resistance of extensive amalgam restorations using various retention methods (Plasmans et al). 1987;57:16-20
Retainer; *see* **Retention**
Retention
Adding retention loops to partial dentures (Lieberman and Weinstein). 1987;57:526-7
Bond strengths of the lost salt procedure: a new retention method for resin-bonded fixed prostheses (Moon). 1987;57:435-9
A custom tracheostoma valve retainer for the laryngectomy patient (Jacob and Bowman). 1987;57:479-82

Retention—cont'd
Effect of cavity varnish on retention of cemented cast crowns (Felton et al). 1987;57:411-6
Factors affecting the retention and fit of gold castings (Marker et al). 1987;57:425-30
A hybrid matrix retainer for two-surface proximal restorations (Ré and Kaiser). 1987;57:252-3 (Tips)
In vitro resistance of extensive amalgam restorations using various retention methods (Plasmans et al). 1987;57:16-20
A marriage of convenience: bonds of retention pins and composites (Federick). 1987;57:270-6
A metal-based denture with soft liner to accommodate the severely resorbed mandibular alveolar ridge (Massad). 1987;57:707-11
Microscopic examination of resin bond to enamel and retainer with a phosphate monomer resin (Ferrari et al). 1987;57:298-301
Minimizing problems in fitting, seating, and cementation of fixed prosthodontic retainers (Bell). 1987;57:266-70
Resin-bonded retainers with custom-made precision attachment for anterior alveolar ridge defect in patients with cleft (Cohen et al). 1987;57:78-81
Saliva contamination and resin bonding of etched metal retainers (Cassidy and Storie). 1987;57:29-32
Stabilized bases using available undercuts for retention and stability (Coffield). 1987;57:525

Reversible hydrocolloid impression
Improving reversible hydrocolloid impressions of subgingival areas (Nichols and Woelfel). 1987;57:11-4

Ridge defect; *see also* **Alveolar ridge**
Incidence of anterior ridge deformities in partially edentulous patients (Abrams et al). 1987;57:191-4
Resin-bonded retainers with custom-made precision attachment for anterior alveolar ridge defect in patients with cleft (Cohen et al). 1987;57:78-81

Ring lining
An investigation of the potential biohazards associated with asbestos-substitute casting ring liners (Tulachka et al). 1987;57:108-12
Potential health hazards of ceramic ring lining material (Davis). 1987;57:362-9

Root
Considerations for furcation treatment. Part II: periodontal therapy (Baima). 1987;57:400-4
Root stresses with tapered-end post design in periodontally compromised teeth (Pao et al). 1987;57:281-6

Rotary instrument
Retentive strength of pins cut with rotary instruments (Richeson and Sarrett). 1987;57:14-6

Rubber
A silicone rubber spacer for processed resilient liner in removable prosthodontics (Bolouri). 1987;57:117-21
A study of bubbles in a rubber elastomer manipulated under clinical conditions (Stackhouse et al). 1987;57:591-6

S

Saliva
The relationship of drug use to denture functions and saliva flow rate in a geriatric population (Kreher et al). 1987;57:631-8
Saliva: a significant factor in removable prosthodontic treatment (Edgerton et al). 1987;57:57-66
Saliva contamination and resin bonding of etched metal retainers (Cassidy and Storie). 1987;57:29-32

Salt
Bond strengths of the lost salt procedure: a new retention method for resin-bonded fixed prostheses (Moon). 1987;57:435-9

Scanning electron microscopy; *see also* **Microscopy**
Denture plaque and palatal mucosa in denture stomatitis: scanning electron microscopic and microbiologic study (Catalan et al). 1987;57:581-6
A scanning electron microscope comparison of microfilled fixed prosthodontic resins (Strohaver and Mattie). 1987;57:559-65

Screw post
Effects of cementing on retention of a prefabricated screw post (Millstein et al). 1987;57:171-4

Seating
A method for uniform seating pressure on castings during cementation (Scarbeck et al). 1987;57:537-9
Minimizing problems in fitting, seating, and cementation of fixed prosthodontic retainers (Bell). 1987;57:266-70

Sectional surgical stent
Fabrication of a sectional surgical stent for hydroxyapatite augmentation for the edentulous residual ridge (Yard and Latta). 1987;57:482-4

Segmented framework
The segmented framework removable partial denture (Hansen and Singer). 1987;57:765-8

Serratia marcescens
Bacterial penetration around amalgam restorations (Fayyad and Ball). 1987;57:571-4

Silicone
Macrocellular silicone foam for mechanically retaining orbital prostheses (Townend et al). 1987;57:611-6
A silicone rubber spacer for processed resilient liner in removable prosthodontics (Bolouri). 1987;57:117-21

Silver
Dimensional stability of silver amalgam and composite used as core materials (Oliva and Lowe). 1987;57:554-9

Sleep
The sleep-wear syndrome (Colquitt). 1987;57:33-41

Smear removal
Smear removal agents: a quantitative study in vivo and in vitro (Meryon et al). 1987;57:174-9

Soft liner
A metal-based denture with soft liner to accommodate the severely resorbed mandibular alveolar ridge (Massad). 1987;57:707-11

Soldering
Improved fixed partial denture soldering (St. Arnault et al). 1987;57:528-9 (Tips)
Strength properties of soldered joints for a gold-palladium alloy and a palladium alloy (Lorenzana et al). 1987;57:450-4
Tensile strength of an alternative soldered connector (Moskowitz et al). 1987;57:301-6
Tensile strength of postceramic solder joints with a palladium-silver alloy (Boudrias and Nicholls). 1987;57:165-71
Tensile strength analysis of midpontic soldering (Ferencz). 1987;57:696-703

Spacer
A silicone rubber spacer for processed resilient liner in removable prosthodontics (Bolouri). 1987;57:117-21

Specialties
Perceived or actual overlap between the scope of prosthodontics and other recognized dental specialties (Landesman et al). 1987;57:113-5

Speech
A custom speech valve retainer for the laryngectomee (Andres et al). 1987;57:208-14
Effect of a maxillary glossectomy prosthesis on articulation and swallowing (Davis et al). 1987;57:715-9
An interim prosthesis for the glossectomy patient (Izdebski et al). 1987;57:608-11
An overview of the maxillofacial prosthesis as a speech rehabilitation aid (Groetsema). 1987;57:204-8

Speech valve retainer
A custom speech valve retainer for the laryngectomee (Andres et al). 1987;57:208-14

Splint
Cross-splinting a weakened tooth with a horizontal pin: a new method (Mondelli et al). 1987;57:442-5
A simplified technique for occlusal splint fabrication (Haddix). 1987;57:249-51

Sprue
Sprue design and its effect on the castability of ceramometal alloys (Young et al). 1987;57:160-4

Stability
Retentive strength of pins cut with rotary instruments (Richeson and Sarrett). 1987;57:14-6
Stabilized bases using available undercuts for retention and stability (Coffield). 1987;57:525

Staining
The microscopic appearance and effect of toothbrushing on extrinsically stained metal-ceramic restorations (Bativala et al). 1987; 57:47-52
The staining characteristics, transverse strength, and microhardness of a visible light-cured denture base material (Khan et al). 1987;57:384-6
Staple implant
A reline procedure for prostheses supported by ramus frame and mandibular staple implants (Rodriguez et al). 1987; 57:658-9
Stent
Fabrication of a sectional surgical stent for hydroxyapatite augmentation for the edentulous residual ridge (Yard and Latta). 1987;57:482-4
Stereophotogrammetry
Abutment tooth movement measured in vivo by using stereophotogrammetry (Browning et al). 1987;57:323-8
Sterilization
Dimensional changes of elastomers during cold sterilization (Johansen and Stackhouse). 1987;57:233-6
Stoma
A custom tracheostoma valve retainer for the laryngectomy patient (Jacob and Bowman). 1987;57:479-82
Stomatitis
Antibody titre changes in patients undergoing treatment for denture stomatitis (Fouche et al). 1987;57:587-91
Denture plaque and palatal mucosa in denture stomatitis: scanning electron microscopic and microbiologic study (Catalan et al). 1987;57:581-6
Stone
A comparison of the compatibility of elastomeric impression materials, type IV dental stones, and liquid media (Gerrow and Schneider). 1987;57:292-8
Storage
Microleakage: the effect of storage and cycling duration (Crim and Garcia-Godoy). 1987;57:574-6
Stylomandibular ligament
Ernest syndrome as a consequence of stylomandibular ligament injury: a report of 68 patients (Shankland). 1987;57:501-6
Subcrevicular attachment complex
Restorative margins and periodontal health: a new look at an old perspective (Block). 1987;57:683-9
Subgingival area
Improving reversible hydrocolloid impressions of subgingival areas (Nichols and Woelfel). 1987;57:11-4
Submerged implant
Transfer impression for accurate adjustment of a metal coping insert for the submerged implant (Burns et al). 1987;57:484-7
Surface roughness
Evaluation of finishing techniques for assessing surface roughness of amalgam restorations (Ulusoy et al). 1987;57:286-92
Surface-sealed dental material
Biocompatibility of surface-sealed dental materials against exposed pulps (Cox et al). 1987;57:1-8
Surgical placement guide
Surgical placement guide for use with osseointegrated implants (Edge). 1987;57:719-22
Surgical stent
Fabrication of a sectional surgical stent for hydroxyapatite augmentation for the edentulous residual ridge (Yard and Latta). 1987;57:482-4
Surveyor
Recording and reproducing the tilt of a cast on a surveyor (Steas). 1987;57:121-5
Swallowing
Effect of a maxillary glossectomy prosthesis on articulation and swallowing (Davis et al). 1987;57:715-9

T

Technology
Dental technology. 1987;57:116-25, 247-51, 380-6, 520-7, 650-9, 765-71
Temperature
The effect of the temperature at quenching on the mechanical properties of casting alloys (DuBois et al). 1987;57:566-71
Temporary crown
Custom contoured temporary crowns (Williams). 1987;57:380-1
Temporomandibular joint
Magnetic resonance imaging in confirming internal derangement of the temporomandibular joint (Cirbus et al). 1987;57:488-94
Prenatal developmental process of human temporomandibular joint (Morimoto et al). 1987;57:723-30
Prevalence of types of temporomandibular joint clickings in subjects with missing posterior teeth (Barghi et al). 1987;57:617-20
Symptoms of temporomandibular joint dysfunction and predisposing factors (Meng et al). 1987;57:215-22
A tomographic study of the temporomandibular joint of edentulous patients (Hatjigiorgis et al). 1987;57:354-8
Tensile strength
Tensile strength of an alternative soldered connector (Moskowitz et al). 1987;57:301-6
Tensile strength of postceramic solder joints with a palladium-silver alloy (Boudrias and Nicholls). 1987;57:165-71
Tensile strength analysis of midpontic soldering (Ferencz). 1987; 57:696-703
Thermocycling
Microleakage: the effect of storage and cycling duration (Crim and Garcia-Godoy). 1987;57:574-6
Threaded pin
Retentive strength of pins cut with rotary instruments (Richeson and Sarrett). 1987;57:14-6
Tilt
Recording and reproducing the tilt of a cast on a surveyor (Steas). 1987;57:121-5
Tips from readers
Tips from our readers. 1987;57:126, 252-3, 387-8, 528-9
Tissue
Alternative prosthodontic technique for tissue-integrated prostheses (Rasmussen). 1987;57:198-204
Titanium
Bone-metal interface in osseointegration (Albrektsson and Jacobsson). 1987;57:597-607
TMJ; *see* **Temporomandibular joint**
Tomography
A tomographic study of the temporomandibular joint of edentulous patients (Hatjigiorgis et al). 1987;57:354-8
Tongue
Tongue position in relation to edentulous mandibular impressions (Kotkin and Slabbert). 1987;57:458-62
Tooth; *see also* **Denture**; *specific tooth*
Are anterior replacement teeth too small? (McArthur) 1987;57: 462-5
Effects of composite restorations on resistance to cuspal fracture in posterior teeth (Joynt et al). 1987;57:431-5
Evaluation of the incisive papilla as a guide to anterior tooth position (Grave and Becker). 1987;57:712-4
Tooth contact; *see also* **Occlusion**
The functional range of tooth contact in lateral gliding movements (Yaffe and Ehrlich). 1987;57:730-3
Occlusal contacts and tooth wear (Woda et al). 1987;57:85-93
The tooth contact sound as an analogue of the "quality of occlusion" (Fuller and West). 1987;57:236-43
Tooth materials
In vitro wear rates of three types of commercial denture tooth materials (Whitman et al). 1987;57:243-6
Tooth movement
Abutment tooth movement measured in vivo by using stereophotogrammetry (Browning et al). 1987;57:323-8
Abutment tooth movement related to fit of a removable partial denture (Eick et al). 1987;57:66-72
Tooth preparation
A simplified technique for the tooth preparation of onlay castings (Seymour). 1987;57:9-11
Toothbrushing
The microscopic appearance and effect of toothbrushing on extrinsically stained metal-ceramic restorations (Bativala et al). 1987; 57:47-52

Tracheostoma
A custom tracheostoma valve retainer for the laryngectomy patient (Jacob and Bowman). 1987;57:479-82
Transverse strength
The staining characteristics, transverse strength, and microhardness of a visible light-cured denture base material (Khan et al). 1987;57:384-6
Trisection
Odontic trisection: an alternative therapy (Fournier). 1987;57:397-400

V

Valve retainer
A custom tracheostoma valve retainer for the laryngectomy patient (Jacob and Bowman). 1987;57:479-82
Varnish
Effect of cavity varnish on retention of cemented cast crowns (Felton et al). 1987;57:411-6
The efficacy of resin-compatible cavity varnishes in reducing dentin permeability to free monomer (Tjan et al). 1987;57:179-85
Veneer
Comparison of fracture strength of porcelain-veneered-to-high noble and base metal alloys (Barghi et al). 1987;57:23-6

W

Weakened tooth
Cross-splinting a weakened tooth with a horizontal pin: a new method (Mondelli et al). 1987;57:442-5
Wear rate
Development of an abrasion index (Gourdon et al). 1987;57:358-61
In vitro wear rates of three types of commercial denture tooth materials (Whitman et al). 1987;57:243-6

Z

Zeroing technique
Accuracy of zeroing the articulator (Nowlin et al). 1987;57:647-9
